

**Jose Alejandro Cruz Duran**  
**JAVA DEVELOPER**

*Horizontedesucesos@outlook.com*  
(+52)5574039618

**PROFESSIONAL SUMMARY**

As an enthusiastic and experienced Java developer, I have collaborated with leading companies in the technology industry and am eager to learn and contribute to new projects. I specialized in Java for two years through bootcamps. Then I started working at iFreedoms developing APIs with Java Spring Boot, and later as an analyst at Globalhitss.

Recently, I expanded my skills at Banregio using Java, Spring, and Angular. My profile is characterized by a strong technical background and knowledge in advanced technologies and tools.

**Softtek| Mexico City | May 2023 - Current**

**Position:** Backend Developer

**Activities:**

- Creation of microservices with Spring Boot
- Maintenance and adaptation of existing microservices
- Analysis of Store Procedures
- SQL Query optimization
- Analysis of requirements
- Monitor the performance of existing programs and applications in different environments

**Tools/Technologies:** Java 8, SQL Server, VMWare, Springboot 3, Jira, BitBucket, Confluence, Jenkins.

**Banregio | Mexico City | July 2022 - May 2023**

**Position:** Backend Developer

**Activities:**

- Creation of microservices with Spring Boot
- Maintenance and adaptation of existing microservices
- Analysis of requirements
- Update existing programs and applications
- Identify parts of the program that can be optimized
- Develop modifications and improvements
- Monitor the performance of existing programs and applications

**Tools/Technologies:** Java 8/11, PostgreSQL, Openshift, Springboot 3, Jira, BitBucket, Angular.

**GlobalHitss | Mexico City | April 2021 - June 2022**

**Position:** Developer - Analyst

**Activities:**

- Planning and monitoring of projects
- Analysis of flows, requirements and management of technical documentation
- Performing software development tasks
- Testing, ensuring the source code quality

**ChooSelbri | Mexico City | July 2020 - March 2021**

**Position:** Development Intern

**Activities:**

- Resolve required functionalities through REST services, API, mostly with CRUD operations
- Resolve bugs and add details as per requirements
- Provide support to developed services
- Requirement analysis and development of functionalities

**Tools/Technologies:** Java, JavaScript, AJAX, Servlets, JSP, Bootstrap, Jasper Reports, CSS, HTML 5, Git, Bitbucket, MySQL, Jenkins

## **TECHNICAL SKILLS**

### **Operating Systems**

- Windows, Linux

### **Programming Languages**

- Java EE

### **Databases**

- MySQL
- PostgreSQL
- SQL Server

### **Methodologies**

- SCRUM
- Kanban

### **Others**

- Github
- PrimeFaces
- Jackson
- HTML5
- CSS3
- JSF
- Hibernate
- Thymeleaf
- JPA
- JDBC
- Maven
- Gradle
- RESTful Web Services

## **EDUCATION**

## **Escuela Superior de Economía | Bachelor's degree in Economics | 2014 - 2018**

### **COURSES**

- Logic programming | Udemy | 2020
- Java fundamentals | Udemy | 2020
- Professional MySQL database course | CódigoFacilito | 2020
- Advanced Java - Web applications | Udemy | 2020
- Java Bootcamp | Udemy | 2021
- Object-oriented programming course (OOP) (2022)
- Secure development course - (2023 Banregio)
- English different levels from Softtek courses
- Udemy courses focused on microservices

### **CERTIFICATIONS**

- **SCRUM fundamentals** | Scrum Study | May 2021 | ID: waYQs-H9dJ
- **Azure Fundamentals** | Microsoft | 2021 | ID: 20192020

### **SOFT SKILLS**

- Proactivity
- Resilience
- Collaboration
- Analytical skills and problem-solving.

### **LANGUAGES**

- Native Spanish
- English B1
